Glamour effect Moondust ECO is a product that adds unusual colorus with shimmering particles, creating a unique colour palette with the possibility of obtaining a variety of optical effects. The shiny particles contained in the product, added to the Glamour effect GLAZE, give the surfaces a delicate shine. A stain with the addition of Moondust produces a shimmering coating, making it ideal for representative rooms, small pieces of surface or decorative elements. The delicate structure of the wall and shimmering particles make the rooms gain extraordinary shine and elegance. The addition of Moondust to decorative products makes it possible to give an original look even to ordinary surfaces, which makes it a simple solution, but at the same time very effective, illuminating the interiors and emphasizing the character of the decorated surfaces. Moondust can be added to waterborne paints and varnishes used indoors. It is also perfect for handmade work, for example for decorating Christmas decorations. Glamour effect Moondust ECO, in addition to its unique colour effect, is distinguished by the fact that it is free of microplastics, which makes it more environmentally friendly.

HOW TO USE:

- › The surface to be painted should be seasoned, clean and dry.
- › Immediately before painting, add Glamour effect Moondust ECO to Glamour effect GLAZE and mix thoroughly but gently until the consistency is even. Do not use high-speed agitators.
- › Add 10 g to 70 g of Moondust to 750 ml of Glaze, depending on the expected intensity of the effect.
- › The product Glamour effect Moondust ECO can also be mixed with other water-based paints or varnishes.
- › After adding Glamour effect Moondust ECO to paint or varnish, use the mixture within 12 hours.
- › Before application, you should test it on a small area to make sure that the final result will be as expected.

TECHNICAL DATA SHEET

GLAMOUR effect Moon Dust ECO

SHELF LIFE:

› 5 years

TRANSPORT AND STORAGE:

› Store and transport in airtight, original packaging at a temperature of +5°C to +40°C. Protect from frost.
